

Edmonton Bulletin.

Senate Reading Room
1 Jan 1900

Vol. XXI, No. 98

EDMONTON, ALBERTA, MONDAY, OCTOBER 9TH, 1899.

SEMI-WEEKLY, 4 PAGES.

LOCAL.

COUNT opens Thursday.
SHARP white frost last night, 6 degrees.
SNOW is quoted at \$175 for a \$240 scrip.
HARDY garden flowers are still unscorched in town.
Mrs. MANN and Geo. Mann left to-day for Union Lake.
FROST on the potato tops at Battledore on Sept. 27th.
J. D. CHURCH, grocer, has sold out his stock and effects.
The telephone line was completed to Dawson on Oct. 4th.
THRESHING will be general throughout the district this week.
TWENTY-three cents for oats this morning on this side of the river.
The Dearing agency here has shipped six cars of oats this season already.
HAY \$4 to \$5 a ton last week and in fair supply. Green oats \$5 to \$6 a ton.
OATS 25c in Strathcona, considerable coming in. Wheat 50c, very little offering.
Four million bushels of Manitoba's wheat crop have been received at C.P.R. elevators.
A SPRING lamb that dressed 78 pounds was on view in Mooney's butcher shop last week.
H. D. JOHNSON of Edmonton and Johnson, architects, returned from Calgary last week.
The Dowling Milling Co. bought 3,000 bushels of last year's wheat from W. East on Saturday.
G. F. CARRUTHERS, of Carruthers & Brock, insurance agents, Winnipeg, arrived on Friday's train on a business trip.
The town water tanks at the Imperial bank and the Fire hall are to be renewed. Tenders for the work are called for by advertisement.
V. MOIR of Stony Plain sold a load of wheat on Saturday to the Dowling Milling Co. at 50c a bushel.
BUTTER up to 20c, and eggs 50c with an upward tendency. First class fresh butter and fresh eggs are scarce.
The Dearing Co. have sold two tread thrashers this season. One to Z. Lapierre, of St. Albert, and one to J. Bull.
A PRIZE chicken fowl into Morris & Co's store on Thursday last and lighted on a clothes rack. It was caught and killed by a clerk.
Mrs. KERRAN and Miss Coffey have opened a millinery store two doors west of Wagoner's tailor shop. They show a handsome stock.
The contract for the erection of a Sabbath school building in connection with All Saint's church has been let to J. Ball. Estimated cost \$1,400.
A SAN FRANCISCO despatch mentions the arrival there of Thomas Tipton, of Edmonton, from Herschell Island, by the steam whaler Mary D. Hume.
McDUGALL & SKEIRD have purchased the two lots opposite their store on Jasper street from the Jacques Cartier bank for \$4,000. The lots are about 106 feet front.
The basement of the Edmonton Public hospital is being excavated. Only the walls will be built, the floor laid and windows put in this fall. J. R. Manson contractor.
This gold medal in the eleventh contest at the Calgary fair was won by Miss Beattie Birdall, of Medicine Hat. Misses Steeves and Ritchie, of Strathcona, were contestants.
WHEAT was nearly all stacked in the Agricultural settlement on Saturday. Threshing will commence this week. Grain is reported in good condition, and large returns are expected from the threshers.
W. E. HERMAN of Reid City, Michigan, arrived last week. He brings a trotting stallion, "Bay Nelson" and a standard bred trotting mare "Lucy Wylie." He intends to purchase a farm and settle in this district.
The R. E. French Theatre Co. have engaged the Robertson Hall for a week's engagement, commencing 7th of next month. The company visited Edmonton last year and was one of the best ever seen here.
W. WILKINS was in town on Saturday. He is in the north again buying cattle for Wm. Macdonnell, of Wetaskiwin. The large band recently driven down by Macdonnell by Messrs. Wilkie and Young reached Wetaskiwin in good shape.
A HOSPITAL meeting was held in Ross' Hall, Strathcona, on Thursday evening. It was decided that the ladies aid should secure further subscriptions, and find out how many patients from south of the river have been treated in the Edmonton hospital.
W. WALKER, of Agricola, lost the frame of his saw mill by fire on Wednesday night last. The mill was run by his thresher engine, and was established on his farm. Fire got into the saw dust some time ago and could not be got out. The high wind fanned it to flame, and destroyed all the woodwork of the mill. This was the only loss.
The sale of Territorial government survey outcrops took place on Saturday at McCauley's stables. The outcrops were those used by Chalmers and McFee on the trails to Lesser Slave Lake and on Peace River. There was a good attendance and fair prices. Horses went up to \$75, and one small pony was sold for \$11. Everything was cleared out. W. S. Robertson auctioneer.
R. SKEIRD returned from the north last week. He was at Lesser Slave Lake, Peace River Crossing, Danvergan, Pelican rapids and Athabasca Landing. The treaty and scrip commissioners made business lively in the north this season. Traders at Slave Lake are and will be busy for some time to come. Owing to high water and good times boatmen were hard to get. Hay is being put up along the route by way of the Landing for winter use. Most of the freight will likely go that way. The season in the north was dry and pleasant. Quite different from that at Edmonton.
The department of interior has issued a very handsome map of the Yukon and Mackenzie river districts, showing the country from Edmonton to the Arctic ocean, and west to the Pacific and Alaska. It covers the same ground as the preliminary map issued in January 1898, but is on a larger sheet and gives much more minute details. It is a very valuable map and includes the results of all the established surveys up to '98. Unfortunately the later information secured by the various Klondike expeditions of last year, and the Peace river railway survey parties are not shown on it, as the information was not available in time.

STOVER's directory for October is to hand. The Harry Lindley Co. has been playing at Prince Albert.
The telegraph rate to Dawson will be \$4 for ten words and 20 cents for each additional word.
The Calgary Herald says that Gordon & Ironside shipped six full train loads of cattle east last week.
CHRISTIE E. SMITH came up from Calgary on Friday to open up a music store, in connection with the Alberta Music Co.
C. BEAUBOIS, liberal M.P. for Berthier, Quebec, and an alderman of Montreal, has been appointed postmaster of Montreal.
A BAZAAR in aid of the building fund of the Roman Catholic church will be held shortly by the ladies of the congregation.
TWENTY-five fifters and helpers employed in the C. P. R. shops, Calgary, joined the general strike of those workmen on Oct. 5th.
TEACHERS' convention at Edmonton Thursday and Friday next October 12th, and 13th. Social in connection on Thursday evening.
J. A. McDUGALL is erecting a frame building 20x30 on Second street, adjoining the residence of W. J. Richardson. K. A. McDougall, contractor.
D. ROSS sold 37 hogs last week to J. Gainer at 50c a pound live weight. W. East sold 17 hogs to Mr. Gainer at something over 5c. A high price for hogs.
J. M. CLOSSON, dry goods and ladies wear, has purchased the store at present occupied by the Marks, Clavet, Dobie, Co. and will occupy it from the first of next month.
WING LEE, laundryman, is raising the building occupied and recently purchased by him a story. While the work is going on it is occupying one side of the adjoining building.
RAYMOND FITZMAURICE, who has been ranching with W. C. Gillis near Victoria, came in on Thursday last, and was taken ill with typhoid fever. He is now in the hospital here.
This brick work of C. Sandison's building is completed, and the roof is on. The cornice is very handsome. Already the side is ornamented with the legend, J. H. Morris & Co.
W. G. ROSS of Fort Saskatchewan is starting a store at Edna, at the Victoria trail crossing of Beaver Creek. Percy N. Neale, formerly of the N. W. N. P. is associated with him in the enterprise.
The Calgary Herald says that the representative of the Parsons produce company is in that city on Oct. 5th, wanting to buy 5 cars of creamery butter for Kootenay trade. So far he had only been able to get one car load.
JOHN FRASER of Edmonton has brought to the BULLETIN a potato stalk six feet in length overgrown with small potatoes, formed along the stalk above ground. This is not an uncommon occurrence in this district in wet seasons.
J. S. WILSON, who visited Edmonton this summer, and purchased a farm in the Horse Hills settlement, came in from Toronto on Friday, accompanied by Mrs. Wilson. A car load of his stock and effects will arrive on to-night's train.
A. D. OSWORN arrived from Dawson on Friday night. He looks well after having suffered from the "Dawson Grippe" or "Trail." He had scurvy, but has almost recovered. If he had not been attacked by scurvy he would have remained the Yukon district.
Regina rider: "Several Regina District farmers and their wives, including the Messrs. Mutch of Cottonwood and the Messrs. Martin of Wascana, left on Tuesday to visit the Calgary fair and the National Park at Banff."
The MacMILLAN'S September circular says: "The outlook is that there will be an active demand, and it looks as though prices would start in on a basis of at least what they closed at last season. Trapping of skunk, muskrat and beaver can be commenced the middle of next month. Mink, raccoon and other classes of furs should not be trapped before a month later."
A MEETING of license commissioners was held at Wetaskiwin last week to decide on the transfer of license held by Mr. Hamilton from one building to another. Messrs. Lavasseur, St. Albert and Wynne, Innisfail, attended. As they were divided in their opinions they did not reach a decision. F. L. McNamara attended the sittings on behalf of one of the parties.
TRAINS began running regularly from Robson to Grand Forks, B. C. on Monday Sept. 18th. The train will run three times a week and the fare from Cascade to Nelson is \$7.05. The road is being operated by the C. P. R. construction department. It will not be taken over by the traffic department until it is completed to Midway. It is expected to reach Greenwood about Oct. 10th.
C. W. MATTHEWS has some excellent views of the river at high water. One view shows the driftwood hanging on the top of the south pier. The other is a day later after the water had raised the driftwood off the piers and flooded the corner of D. Ross' garden. The Dowling Co's mill appears to be standing in the river. J. Morris has some excellent amateur photos of the same scene.
The Lethbridge News reports small pox at Great Falls, Montana, the southern extremity of the railroad which runs south from Lethbridge. The Alberta railway trains are only running to Shelby Junction, where the Great Northern is crossed, and are there met by trains from Great Falls. The local government is taking measures for the preservation of Lethbridge from the plague.
PRINCE ALBERT Advocate: L. Boudreau, who was engaged as a clerk in the store of T. O. Davis, M. P., for a year or so, and left for the east this summer with the intention of returning to open up a store at St. Louis, has started up in Strathcona, formerly South Edmonton, in a general store, having received the assistance of former employer in Montreal. His many friends here will be pleased to learn of his success in the far west.
L. GATES, who acted as immigration agent in the counties of Isabella, Millard and Clare in the southern peninsula of Michigan during three months last winter, reports that 40 heads of families have settled in the district west of Leduc, as the result of his efforts. Five families came within the past two weeks. Most of those who came were originally Canadians. The success of Mr. Gates shows what can be done by the employment of men who can speak with practical experience of the region which they recommend.

NEW ADVERTISEMENTS.

\$9.00 PER DAY. Reliable person reliable firm. Position permanent. \$900.00 per year and expenses. Experience unnecessary. M. A. O'Keefe, Dist. Manager, Winnipeg, Man.

EDMONTON BULLETIN, OCT. 9TH, 1899

AS TO RACE ASSIMILATION.

The assimilative power of the Anglo-Saxon race, acting merely by moral force, does not seem to be very much in evidence in South Africa just now. The Boers of Cape Colony are still Boers in fact and sentiment to the extent of joining the Transvaal in its military struggle against Britain. We also read that representatives of almost every other nationality in the Transvaal have taken sides with the republic against Britain. It is time that the idea of the Anglo-Saxon having greater assimilative power than any other race should be dropped—if ever sensible people held it. Given a sufficient preponderance of numbers, and sufficient time, and they can assimilate others. But without such advantage they cannot. Give any other race sufficient time and numbers, and they can assimilate the Anglo-Saxon. There is no magic in the name of the race, except the magic of untiring effort and practical common sense—applied under suitable conditions. Unless the conditions are suitable the effort and the common sense are together unavailing. How much more so if common sense is not present; as in the idea that a few thousand Canadians can assimilate the hordes of Russia transported to the Northwest.

SEVERAL papers supporting the liberal party and published in manufacturing centres in the east are starting an agitation for an increase of the duty on United States farm machinery. They may be sincere, but are very injudicious friends of the government who make the suggestion.

THE Vancouver World has recent mention that Supt. Steele has despatched relief to the victims of the Mackenzie river trail. This expedition is to cross over from the Porcupine to the Peel at Fort Macpherson. The World says: "Their mission has been undertaken in consequence of the very distressing reports that have reached Dawson from the Macpherson country during the past six months." The fact that there never has been any distress or any prospect of any in the vicinity of Fort Macpherson, and the further fact that there are not and have not been for some months any Klondikers there to be relieved would seem to indicate that this "relief of Edmonton trail victims" is being somewhat run into the ground.

When a story was circulated recently that English speaking settlers were being evicted from their settlement near Devil's lake, Assa, in favor of Doukhobors the BULLETIN said that if the facts were as stated it was an outrage. The Free Press apologized for the alleged eviction and tried to discredit the English settlers. The Free Press under its present management has always posed as the mouthpiece of the government, but in this case its apology was repudiated by the statement being denied in a letter which appeared recently in the columns of the BULLETIN. Because the Free Press apologized for what did not occur—and which would have been distinctly contrary to the policy of the government had it occurred—thereby showing that it was not the mouthpiece of the government and discrediting its pretensions as such, it is made clear through the BULLETIN and its editor. It heads its editorial wall: "The antics of an office holder," and concludes with the following, which is given as a sample of the lucidity of argument of the journalistic "has been" of Manitoba: "The BULLETIN may be an unimportant paper, but this dishonest method of treating public affairs, and the childish attempt to make the Free Press responsible for the slander which the BULLETIN seized on in the letter to the conservative press, are attributable to a paid office-holder, a member of parliament, and we do not propose that his scurvy conduct in this regard, his contempt for the truth, and his propensity to garble and misrepresent should go unexposed."

THE BRIDGE.

The southern abutment of the bridge has been raised to its full height, eight feet above its former level. The work was completed on Saturday. The work of raising the northern abutment will be begun to-day and will be completed this week. The false work reached the south pier on Saturday and is being continued on to the centre pier this week. When the centre pier is reached the work of raising all the piers will begin, as the north pier will be reached from the north side by a temporary trestle work. Three of the four cars of cement ordered have arrived and the remaining car will be in good time. Mr. St. Laurent the government engineer has been recalled to Ottawa on urgent business, but Mr. Gouin, government engineer of Winnipeg, who took the measurements for the bridge in the first place, will arrive to-night. He will be instructed by Mr. St. Laurent before the latter leaves.

SUCCESSFUL TRADERS.

Hislop & Nagle's season's trade of fur arrived from Great Slave lake last week. It is the largest return ever sent out by this firm and is valued at \$40,000 to \$45,000. It is not offered for competition here. The fur is sent on to Lamson & Co., London, to be sold at their great sales. The musk ox robes, moose and caribou leather, sinew, etc., are taken for local trade here by McDougall & Secord. The outfit was about three weeks late in reaching the Landing, delayed in tracking up stream by high water. The highest seen on the Athabasca for twenty years. The distance from Resolution, the head post of Messrs. Hislop & Nagle, to the Landing is about 800 miles, up stream. Nearly one hundred miles of this distance is against a succession of heavy rapids, 16 miles at Fort Smith and 80 miles at McMurray. Messrs. Hislop & Nagle have purchased the steamer Sparrow from McDougall & Secord, and had taken it successfully over the rapids at Fort Smith. J. Kelly is employed by them to remain all winter and fit in the machinery, which had to be taken out to get her over the rapids, so as to be ready to start work in the spring. With this steamer at command the firm will be able to extend their operations down the Mackenzie a thousand miles to the Arctic ocean.

A BIG BUSINESS.

P. Burns is erecting in Calgary an abattoir and cold storage. The former has a capacity of 300 steers per day and the latter will chill 4,000 carcasses. At present Mr. Burns imports 100,000 pounds of cured pork and hams, and disposes of the fresh pork of 50 hogs per day. He expects to require 100 hogs per day during the coming season. He does the bulk of the meat trade of the Kootenay district.

TOO MUCH TO STAND.

THE BULLETIN is indebted to G. W. Hislop, formerly of Edmonton, for a clipping from a Tacoma paper giving the comments of John E. Enright of Chicago, on some of the stories of hard ships and loss of life on the so called Edmonton trail. Mr. Enright went down the Athabasca, up the Liard and Dease and down the Stikine to Wrangel. He says: "I wish to correct the many errors which appeared in the associated press despatch, dated Wrangel, Alaska." Mr. Enright was of those who travelled across country from Snyetown on the Liard to Mud River post. It was the difficulties of this trip which was the foundation for the principal part of the stories of extreme suffering on the Liard. Mr. Enright says: "The story of the indescribable horrors is much exaggerated, except in the case of Mr. Harris, who unfortunately was badly frozen last winter and will no doubt be crippled for life." "The pitiful story told by Albert Dunn of Quebec is entirely without foundation." "I will also say that there were quite a number of men on the trail who took advantage of the aid offered by the Hudson Bay company and by Mr. Simpson, and were neither suffering from the scurvy nor a depleted pocket book."

DEATH OF L. F. DAY.

L. F. Day died at Grand Rapids on Aug. 20th, '99, while coming up the Athabasca. He wintered at Peel river, and came on board the H. B. Co. steamer Wrigley at Fort Norman, to come out. He was in very poor health all the way up the river. Dr. Mason, of Chicago, attended him to McMurray, when the sisters of charity volunteered to look after him for the remainder of the journey. Every possible care and attention was given him without avail. A doctor, who happened to be present when he died, pronounced the cause of death cancer of the stomach. Corp. Trotter, of the N. W. M. Police who was travelling with the party, took charge of the body, and also the worldly effects of the deceased. The latter were taken to Fort Saskatchewan, where they will be kept until his friends can be communicated with. On the morning following death the remains were buried on the bank of the Athabasca near the Brule rapid. All the passengers and boat crews of the travelling parties were present while the Rev. Father Bouchier, of the Fort Simpson-Mackenzie river mission, read the burial service. Every credit has to be given to Rev. Sister Letellier (superior of the Edmonton general

hospital) who was returning from a tour of inspection of the convents of Grey Nuns in the north, and E. Bouchard (a returning Klondiker) for the great care and attention which they gave the unfortunate man during his illness.

BOUND FOR EDMONTON.

Calgary Herald, Oct. 2: Miss Henderson, who has been visiting in the east, went north to Edmonton to-day. Stephen Rose, his wife, three sons and two daughters, from Prince Edward Island, left for Edmonton to-day to take up land and sell it. Mrs. Watson, two sons and six daughters, just arrived from Ontario, left for Edmonton to-day to join her husband, who has been in the north for some time, and taken up land near Beaver lake. Mrs. Watson comes from Renfrew Co., Ont. James Jeffries, and daughter Mrs. Eskett, arrived from Ontario yesterday and left for Edmonton to-day. Mr. Eskett is following with a car of stock. Messrs. Eskett and Jeffries both intend to take up land in the Edmonton district. The rest of Mr. Jeffries' family will follow in the spring.

GENERAL PURPOSE HORSES

Another carload of Heavy Draft and General Purpose Horses arrived last night. For sale at Cartage Co.'s old stable.

FORT SASKATCHEWAN FALL FAIR.

Correspondence.
The Fort Saskatchewan agricultural society held its exhibition on the 29th of Sept. last. The day was beautiful and fine and considering the farmers were so busy stacking their grain the attendance was all that could be desired.

Competition was good. The live stock shown was as good as in this northern country, and the grain, considering the season, showed that the farmers have been industrious, and have done their work to the best of their ability. The vegetables were of an excellent quality and made a very good display.

The ladies came forward in good heart and showed as a test of their taste, and the little girls gave a good promise by their exhibits that in the future they will be able to take the place required of them to their very great credit.

The society tenders its very best thanks to the officer commanding the N. W. M. P. for so generously and promptly supplying such choice men to assist in keeping order at the exhibition grounds during the fair.

The following is a list of the names of the winners of the different prizes:

HORSES.—CLASS 1.—HEAVY DRAUGHT.

Pair horses in harness: P. Mohr.

Brood mare and foal: D. Simmons, P. Mohr.

Yearling: P. Mohr.

BACK FROM DAWSON.

A. D. Osborne returned on Friday's train from Dawson City, which he left on Sept. 11th. He spent a few days at Banff. Mr. Osborne is one of the victims of the "Death Trail," of the Globe, Free Press, Seattle Post-Intelligencer and several other equally patriotic Canadian papers. Considering that he is considerably over 60 years of age, and has had an attack of scurvy he does not look much the worse. Mr. Osborne was one of the large party which followed W. Taylor's blaze from Peace River Crossing to Fort Nelson. As already stated the parties split up there. Mr. Osborne, two Jamieson Brothers, from Grismouth, Man., three of another party, Murphy and O'Neil of Chicago, Geddes, owner of a band of cattle, and some others, with about sixty horses left Nelson on August 5th to cross the Rocky Mountains to Mud and Dease rivers. They reached Mud river post, on the Liard west of the Rockies, on October 5th. Two months on the trip. All the horses but two and all the cattle got through safely. The two horses got footsore in crossing the mountains and had to be shot. The party had a good trail for forty miles from Fort Nelson along the bank of the Sciannee. The foothills were then reached, and from there to Mud river there was practically no trail. They had no guide, winter was coming on, and at times they were much discouraged. However, there was not much muskox, the timber was not heavy, and the mountains were not nearly as high or close together as in Alberta. On reaching Mud river post Mr. Osborne decided to winter there. Goddess drove his cattle on to McDame's creek, on Dease river, thinking they would winter there, but only six out of 46 had lived through the winter. His losses along the trail were very light. There was plenty of grass near Mud river post but the snow got deep and the weather cold and all the horses that were there died. About fifteen prospectors wintered at Mud river post and about 100 lower down at Brule portage.

Mr. Osborne and the Jamiesons pushed on over the ice in February, and reached the Liard post at the mouth of the Dease on the ice. In the spring, after having visited Francis lake, the Jamiesons decided to go out by Wrangel. Mr. Osborne bought four horses which had wintered at McDame's creek, and joining two other men named Rowatt and Derrick, who had three horses each, they followed up Francis river to the lake and crossed to the Pelly river. They left Liard post about July 1st and reached Pelly banks about July 25th. They could find very little sign of Moody's trail to Francis lake, but from Francis lake to Pelly banks the trail was well blazed and was fairly passable. Feed was good all the way. Murphy and Carroll, of Chicago, also made the trip with horses from Dease post to Pelly banks and went to Dawson and St. Michael's. O'Neil, who travelled with Murphy across the mountains, went out by Wrangel. Three Montana men, who had wintered their horses near McDame's creek, took them to Pelly banks and down the Pelly river to Selkirk. After coming some distance down the Pelly with the horses Mr. Osborne decided to take to the river in a boat, as he had then been attacked by scurvy; his right leg was very sore. His boat was swamped below the mouth of Ross river and he lost \$175 in cash, his watch and almost everything in fact except a sleeping bag. His partners caught up to him, and one of them accompanied him down to Selkirk in the boat, while the other took the horses across country to the mouth of Salmon river, and from there down to Selkirk. Horse feed was fairly good along the Pelly, but travelling was difficult as there was no trail. Mr. Osborne was attacked by scurvy

in July. It started in the right leg, apparently as the result of an injury. As soon as he reached Selkirk and could get potatoes, he began to recover.

METEOROLOGICAL.

FALL

Announcement.

THE FALL SEASON is again upon us. How fast the seasons come and go. It seems but a few days since we were advertising our spring and summer goods, and now it is time to talk winter wear and heavy clothing.

Before the hurry and rush of fall business commences we want to say a word or two to our friends, and we take this method of doing so. First, for favors of the past, we wish to thank our many patrons one and all. Never has a store tried harder to please its customers, and we realize our efforts have been appreciated. No pains have been spared and nothing has been left undone to give our patrons the best clothing obtainable for the lowest price possible. We believe we have earned your confidence by deserving it, and we trust our store shall ever have an abiding place in your mind when thinking of clothing.

We extend to every citizen of this northern country an invitation to call, and, if pleased with our goods, our prices and our business methods, to favor us with your patronage.

Our guarantee is nothing less than

Money Back if Not Satisfied.

If you have a thought leaning towards fall clothing, come and see us. It will pay you, and us.

YUKON NEWS.

The Yukon Sun, of Dec. 12th, is full of Dawson news. D. C. Fraser, M. P., had arrived. Mr. Maxwell, M. P., had just left. Dawson men had left for Cape Nome, Alaska, with a newspaper plant. There was quite a rush to Cape Nome, and fairly good reports coming from there. Amongst the rushers was Dr. Benson, a former Winnipegger. Wood is likely to be scarce in winter, and some lines of provisions will be cornered. Fire wood comes from Stewart river, and lumber from White river. Jack Wade creek, a tributary of Forty Mile on the Alaska side, is turning out well. An electric railway up the gold creeks is projected. The workmen on the government telegraph line struck for better food, but were discharged and new men were hired in Dawson. Steam machinery for Dominion creek is being brought in. Three hold ups are mentioned. Amounts realized were \$700, \$400 and \$70 respectively. Five hundred pack horses are in and about Dawson. A body was found on Last Chance creek, indicating murder.

A balloon ascension was a recent Dawson excitement. Four officers and 88 men of the Canadian regulars left Selkirk for Skagway on Sept. 8th, leaving 43 men still at Selkirk. Speaking of the visit of Mr. Maxwell, M. P., the Sun says editorially: "He can, we assert, report to Ottawa that taken collectively there is not a more honest and capable band of officials to be found in any locality in Canada or in the United States. He can report that in no part of Canada are there greater mineral possibilities than in the Yukon. He can go further and report that we labor under crude and imperfect mining laws, that the royalty is excessive on the gross output, that we have not had the roads built to mining camps as fast as they should have been, and that we have a poor mail service."

The Sun is edited by H. J. Woodside. Subscription \$10 a year.

THE SCOTSMAN WRECK.

The steamer Scotsman of the Dominion line struck on rocks in Belle Isle strait, just before daylight on Friday morning Sept. 22nd. She had missed her bearing owing to three days previous fog. When the steamer struck it was feared she was going to sink and several boats were launched. The first boat launched, containing fifteen ladies, sank and ten of the number were drowned. The rest of the passengers and crew reached a lighthouse seven miles distant where they remained until taken off by passing steamers. The wrecked Scotsman was still above water at last accounts and there need have been no loss of life had the people remained on her. The first steamer seen was the Monterey bound for England. Some of the passengers and the firemen of the Scotsman returned on her. The rest were taken off by steamers bound for Montreal. 249 of the passengers were taken off the island by Tuesday Sept. 26th, by the Monterey. They reached Montreal on the 30th. Fifty six were left by the Monterey and were to come on the Germania. The stokers and some stowaways on the Scotsman robbed the passengers when the wreck occurred. Some have been arrested and will be punished severely.

LAKE TAGISH.

Major Perry, N. W. M. P. arrived here on 22nd Sept. on his way to Dawson, having been appointed to command the Yukon district in succession to Major S. B. Steele.

Scows still continue to come down the river bound for Dawson, although the season is getting late and the river is falling fast.

We had our first fall of snow on the 23rd Sept. which soon disappeared, giving way to rain during the day. Showery weather prevails.

A copper strike is reported to have been made at a place some miles north-east of Tagish.

Sept. 23rd, '99.

ANGUS RIDGE.

Mr. Willing weed inspector, paid this district a visit last week. He is an important government officer, and has duties to perform of the greatest importance to the farmers of this country. There was a fair representation from Battle river at the Farmers' Institute at Wetaskiwin, Monday 2nd, inst. Messrs. McKay, Bulvey, Willing, Trant and Marker, gave addresses, which were appreciated by those present. Mr. McKay's address proves that the experimental farm at Indian Head is doing good work. A vote of thanks was given to the speakers at the close. The weather is all that could be desired for harvesting. To-day (Wednesday) is very warm.

Threshing has commenced, here. Thomas Kerr returned from the north last week. He reports plenty of rain during the summer. Mr. Dyberg had a serious time about two weeks ago. His binder and horses got into the river. The binder being two days in the river, had a good soaking. Messrs. Wm. Thirk and Rye, like the good Samaritan, came to his assistance. Jno. McNichol of the burg, passed through here last week. Geo. Batho, agent for Nor-West Farmer, Winnipeg, was present in the interest of his paper, and secured several new subscribers. \$1 a year is not too much for a paper containing so much valuable information to the farmers and the general public.

RIVER DREDGING.

Free Press: "Mr. Albert McLaren, of Ottawa, passed through the city last evening from Edmonton. He has been inspecting the working of the gold dredging plant of Chevalier Drole's company on the Saskatchewan river, for the purpose of getting ideas of the process, for the use of a similar company in which he is interested, and which has recently received leases to carry on operations on the Peace river. Mr. McLaren says that the dredging process is showing wonderful results, though still in the experimental stage. From \$400 to \$500 per day has been made by Drole's company. In order to gather new ideas one of the engineers, a Mr. McFarlane, has gone to New Zealand, where mining by the dredging process is being carried on and found to pay at five cents to the pan. Mr. McLaren states that his visit to the Saskatchewan has been profitable, and his company which was floated recently under the name of the Peace River Gold Dredging company, will commence operations early next spring. Dr. Roughledge, of Edmonton, is the prime mover in the company."

Winnipeg Telegram: "W. F. McCreery, immigration commissioner, has received from Albion specimens of potatoes and onions which for size and beauty probably outrank anything in Canada or the world. The potatoes weigh not less than three pounds and one measured eighteen inches in circumference one way by ten inches the other. The onions were equally large and weighed two pounds each, measuring over twelve inches in circumference and about four inches in diameter."
